Celestial Matrix of Soul Centred Healing

Residential Healing Weekend – 21 to 23 October 2011

I'm very pleased to be able to offer a residential weekend working with the Angelic Signature Healing™ process of Celestial Matrix of Soul Centred Healing.

Celestial Matrix of Soul Centred Healing is an aspect of ASH™ which works specifically with soul retrieval. It is a healing process that consists of five individual healing sessions and follows the path of total integration of an aspect of the soul that is 'inactive' within our matrix at the current time.

Through the healing process we are able to recognise and heal the separation and draw that soul aspect back to our current self and time as an active vibrant energy, clearing all timelines connected with its separation and therefore enabling a greater integration of our soul energy into this lifetime.

This weekend is guided by Ascended Masters Sanat Kumara and Quan Yin and will be facilitated by myself and Jane Allighan, an Angelic Signature Healing™ Practitioner.

This process is intensive and deeply healing; you should come prepared to work, and prepared to *allow* yourself to recognise and be all that you are. However, there will also be time for relaxation and the bar!

The venue is the wonderful Oxon Hoath, near Hadlow in Kent (www.oxonhoath.co.uk) and the fee includes accommodation (sharing in a twin room), and all meals (vegetarian). Single rooms are available at a supplement if required but are limited so do need to be specified as soon as possible. (Special diets can also be catered for at an additional cost of £4.00 per meal).

'Set in the heart of the West Kent Rural Conservation Area, the ancient Manor of Oxon Hoath, built by Sir John Culpepper, has 73 acres of its own beautiful, tranquil gardens and parkland and is a joy to explore. The exotic trees and romantic gardens, sweeping lawns and mysterious woodlands; hidden dells; secret gardens; courtyards and sculptured lake create the perfect environment for self-discovery, profound learning and spiritual development.'
